

DATA SHEET

Version: 01. June 2018

KF0380 adhesive transfer tape, heat-resistant

- Pure polyacrylate
- Very good ageing and UV resistance, resistant to climatic conditions
- High adhesive strength, cohesion (internal strength) and tack
- Good bonding properties on problematic surfaces such as foams or PE/PP films
- The adhesive has low fogging and VOC contents and is APEO-free.

Applications

- ▶ Automotive industry
- ▶ Road construction

Technical data

Adhesive:	Pure polyacrylate / adhesive transfer tape
Backing:	Release paper, white, 80 g/m ²
Thickness of adhesive:	0.03 mm +/- 0.01 mm
Weight of adhesive:	30 g/m ²
Adhesive strength:	min. 16 N/25 mm (AFERA 5001)
Heat resistance:	-40°C to +200°C

The above values are intended as a guide or have been obtained under laboratory conditions and do not constitute any guarantee of product properties. We recommend carrying out preliminary tests to check that our products are suitable for use with other products. Under our General Terms and Conditions, we guarantee consistently high product quality, but due to the many possible applications we cannot accept any liability for specific results in practical applications. This data sheet supersedes any previous versions.
