

DATA SHEET

Version: 01. June 2018

KF09 adhesive transfer tape, electrically conductive

- Modified acrylic adhesive
- Conductive due to its low electrical resistance
- High-performance adhesive suitable for use on construction sites
- Can be used even under difficult installation conditions
- Easy to apply during interior work even at low temperatures
- Excellent ageing and water resistance

Technical data

Adhesive:	Acrylic adhesive / electrically conductive
Backing paper:	Release paper, white, 120 g/m ²
Thickness of adhesive:	0.090 mm +/- 0.01 mm
Weight of adhesive:	90 g/m ²
Electrical conductivity: (on aluminium 99.5% 0.2 mm)	< 10 ⁵ ohm
Adhesive strength on steel:	min. 20 N/25 mm (AFERA 5001)
Peel force based on FTM3:	min. 500 mN/50 mm
Heat resistance:	-40°C to +90°C

The above values are intended as a guide or have been obtained under laboratory conditions and do not constitute any guarantee of product properties. We recommend carrying out preliminary tests to check that our products are suitable for use with other products. Under our General Terms and Conditions, we guarantee consistently high product quality, but due to the many possible applications we cannot accept any liability for specific results in practical applications. This data sheet supersedes any previous versions.
